

6 JUL 1977

MEMORANDUM FOR: Deputy to the DCI for National Intelligence
FROM: Director of Central Intelligence
SUBJECT: Alton Frye's "Foreign Policy" Piece
on SALT Verification

Attached is a rather interesting piece by Alton Frye on the subject of verification. I thought you'd find this interesting. It goes along with my desire to find some more imaginative way to approach the verification issue and to use the leverage we have with the cruise missiles to move ahead into territory that will facilitate SALT III and IV.
